TASK CHAIRS

IKIGAI BY LUXY

I-WORKCHAIR BY SENATOR

POP BY LUXY

SKATE BY SITLAND

ZED BY MILANI

IKIGAI
by LUXY

Ikigai is a Japanese term referring to a balanced lifestyle. Ikigai is designed with the human experience in mind, offering both elegance and simplicity. Urban and minimalist seating, suitable for working anywhere. It is widely regarded as the ultimate task chair.

I-WORKCHAIR 2.0
by SENATOR

I-Workchair has been developed to allow the user a greater range of adjustment to achieve maximum comfort. Our advanced knit technology incorporates high-performance yarns in complex structures, enhancing strength, support, and breathability while creating a contemporary design for the I-Workchair

POP
by LUXY

The Pop chair is designed to bring the frenetic nature of everyday life and the vitality of ideas to the fore. The choice of colours available lends physicality to the pungent whimsy it is intended to enhance. Designed to support the weight of creativity. Pop combines simplicity and functionality with a view to optimising work performance.

SKATE
by SITLAND

Skate project is the evolution of ON collection, the innovative stool with a swaying system integrated in the seat able to provide balance to those who use it. The chair's backrest is inspired by the movement of a skateboard. With Skate the designers wanted to give form to a chair that adapts to the body movements, active and dynamic with high functional performance.

ZED
by MILANI

The various technical specifications of the Zed operative chair, have been designed to offer the best possible strength and ergonomic performance. The mesh backrest feature, can be a separate colour, with eight to choose from, and is height adjustable. Lumbar support can be included for additional ergonomic configuration. A visitor version is also available, featuring a stackable chromed cantilever base.

EXECUTIVE CHAIRS

CLASSIC BY SITLAND

HARMONY BY POLFLEX

LIGHT BY LUXY

NORDIC BY MILANI

QDOS BY SENATOR

CLASSIC
by SITLAND

The Classic collection offers high-backed executive, managerial, and meeting seating with fixed feet and stools. It features an understated design and luxury upholstery, with eight catalogue finishes available in fabric and leather in a variety of colour options. The frame, in chromed steel or matte black coated, also has a base with five spokes available in matte black aluminium and gloss aluminium finishes.

HARMONY
by POLFLEX

The Harmony executive chair features a sturdy beech plywood frame that provides a solid foundation for its design. The chair is upholstered in high-quality hard leather, available in a range of colour options. Despite its sleek design, comfort is not compromised, with high-density polyurethane foam padding providing optimal support and pressure relief.

LIGHT
by LUXY

Timeless and weightless, from the mind of a true maestro. Light combines beauty, artisanal skills, and durability. Designed without visible screws, the chair adds sophistication to any environment, with soft lines and attention to detail that exude harmonious exclusivity.

NORDIC
by MILANI

A collection of executive chairs, ergonomic and light, with a characteristic curved seat, also available in contract version with benches, armchairs and sofas. Available in leather or fabric with a wide range of colours, the armchair offers three different backrest heights. A synchronised tilt mechanism can be incorporated into the frame.

QDOS
by SENATOR

Qdos is a new breed of chair born out of the desire to create perfection. It demands attention. Its striking form, dynamic detailing and simplistic clean lines are nothing but deceiving. The design focuses upon the entirety of the chair the belief that each element should provide a constituent part of the final solution.

CONFE-
RENCE
CHAIRS

COMPACT BY GABER

ELIOS BY SENATOR

SHOLES BY SENATOR

VOILA BY MILANI

WENDY BY MILANI

COMPACT
by GABER

Lightness can be an opinion with the Compact folding chair, although light is also very sturdy with precise values of resistance, soft elements, durability and easy transportation. Compact is designed with anodized aluminium structure and special polymer details and all can be folded in a minimum space of 35 mm. This folding chair is suitable for outdoor environments or meeting and conference rooms.

ELIOS
by SENATOR

Elios is a range of slender and versatile designs that are equally at home in meeting rooms, seminar and conference facilities, training rooms or restaurants. The curvaceous contoured form of both the seat and back achieve excellent comfort as well as adding to the pleasing aesthetics and universal appeal of this design. It's the little things it does that make the difference, the way the seat and back mouldings encapsulate the frame, the way the arm cantilevers from the back and the detachable writing tablet to name a few.

SHOLES
by SENATOR

Introducing Sholes, the truly multi-purpose chair that has been designed to support collaborative working. Its generous proportions and wrap around back provide excellent comfort whichever position you take. The Educational chair option features a moulded PU seat and back for enhanced durability in learning environments, making it an excellent addition for workspaces and conferences.

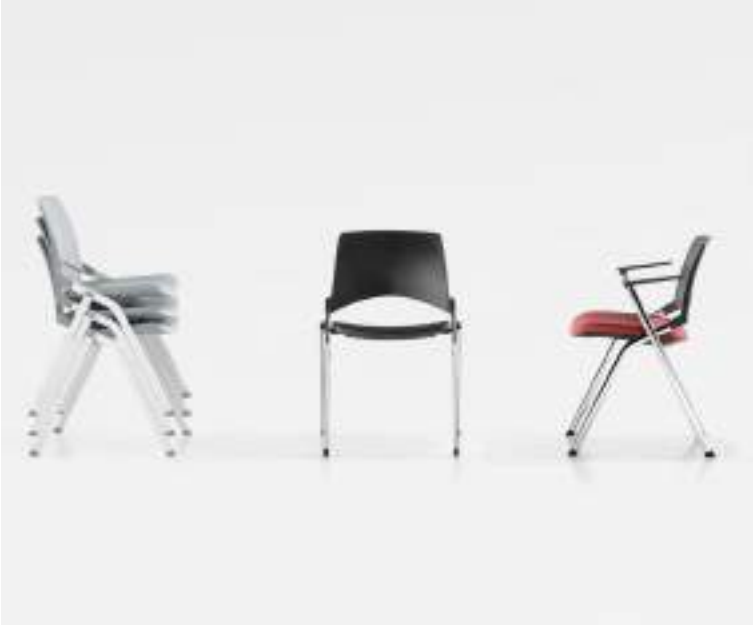

VOILA
by MILANI

Introducing Voila, a versatile chair with a tip-up seat, available in plastic or fabric finish. Voila is stackable, including the version with a convenient writing table, and is available in sleek or glossy aluminium finishes. Ideal for conference room and short-term meeting rooms.

WENDY
by MILANI

Wendy is a multifunctional chair ideal for waiting or conference rooms that is of minimalist design, available with a mesh, plastic, upholstered or wooden back. The combinations are endless thanks to the possibility of covering just the seat and choosing between the various chrome skid bases with or without arms, with writing table or in barstool version, making it versatile for all your spaces.

MULTI-PURPOSE CHAIRS

1085 EDITION BY KRISTALIA

FLORA BY DEBERENN

KANVAS BY GABER

MANAA SLIM BY GABER

MILOS BY SITLAND

1085 EDITION
by KRISTALIA

The 1085 Edition chair is inspired by the almost centenary experience of Presot®, the only tannery in Italy that still works the leather with traditional methods. The chair also draws on nautical know-how, as it adopts the tie-rod mechanism to maintain the tension that would naturally be lost over the years and with the softening of the leather. This beautiful object has the charm of a unique piece of furniture.

FLORA
by DEBERENN

Flora, with its form that envelops the body and its plain appearance, combines comfort and warmth in its design details. It is a perfect choice for offices, hotels and homes. With a variety of colour options, Flora easily adapts to any interior design. With its backrest which tilts back up to 8 degrees, offers a comfort beyond your expectations. Flora, having chrome and powder coating base options, has two types of wheels for soft and hard floors. It can be chosen for its modernity combined with the warmth of wood.

bauhaus
ANDO

KANVAS
by GABER

Kanvas is a contemporary, lightweight collection of multi-use chairs. The lean design and the glossy finishing with the beautiful sculpted back make it suitable for high-density spaces such as training and conference, auditoriums, educational, cafeterias and recreational. The collection has a gently controlled flex that moves with the user's bodyweight to provide comfort, even for extended periods. Many configuration options available.

H

MANAA SLIM
by GABER

The Manaa Slim lends itself to furnishing elegantly the most demanding contexts of work spaces and hospitality. Manaa Slim can be configured as a four-legged chair or stool version, with its practical, sturdy and coloured technopolymer frame, or with its classic solid beechwood structure. The swivel versions complete the collection, furnishing modern office and community spaces with endless finish options.

MILOS
by SITLAND

Milos, Dorigo design, is a seating with extreme aesthetic lightness, with a single-shell seat with a slim and flexible line, supported by a solid and non-deformable inner frame in steel. The possibility of integrating a writing tablet in the armrest structure allows strategic use of the seat in rooms for training and conferences. Milos is also available in the stool version, in two different variants.

DINING CHAIRS

- AXYL BY ALLEMUIR
- BALO BY DEBERENN
- CHANTAL BY SITIA
- CUCARACHA SLIM BY GABER
- HERA BY PEDRALI
- JOKO BY KRISTALIA

AXYL
by ALLERMUIR

Axyl is a collection offering a sophisticated combination of recognisable elements. Comprising of an arm chair, stool, bench and range of tables, Axyl utilises a strong geometric design language that is entirely original yet draws on familiar references to create a range of highly functional seating.

BALO
by DEBERENN

Balo is a new line of conference seating. It has been designed to combine a modern, smart style, high level of chair robustness and use value. It offers highly functional and aesthetically satisfying chairs suitable for any interior. Balo's comfort makes it ideal for offices and conference halls alike.

CHANTAL
by SITIA

A combination between craftsmanship, aesthetic and functionality. Chantal is a sophisticated chair with a shell made of selected fine natural curved woods. It is distinguished by an original design with a retro style. It is available with a small cushion, to increase comfort.

CUCARACHA SLIM
by GABER

Designed by Studio Favaretto & Partners, the Cucaracha lounge armchair collection is defined by its soft and elegant lines. The lounge chair adapts perfectly to all environments requiring relax and comfort, or where waiting needs to be stress-free. The swivel seat, equipped with a tilt mechanism for increased comfort, is available in two backrest heights. The armrest, finely integrated into the modern frame, turns out to be practical and elegant. The wide range of coverings and colours, all suited to contract settings, makes Cucaracha customizable to the trends of modern offices and hotels.

HERA
by PEDRALI

Héra is an armchair available in ash or American walnut that embodies the concept of lightness, fusing it with comfort. The backrest, in three-dimensional bent plywood of 6mm thickness, has a remarkably elegant and ergonomic design, while its upholstered seat in polyurethane foam supported by elastic belts gives great cosiness. The rectangular-section legs with round edge display an attention to detail that makes this item particularly suited for use in some of the world's leading hotels and restaurants. Seat upholstered in fabric, leather or simil leather.

JOKO
by KRISTALIA

One of Kristalia's long-standing partners, the Joko collection has evolved from a poetic minimalist chair. Although it expresses the utmost formal minimalism, it is soft and user-friendly. Over time, it has been succeeded by the chair with armrests and stools in two different heights, a continuously developing evolution, which cannot be said to be over yet. Entirely upholstered in fabric or leather, Joko is made with tailored craftsmanship. It offers almost countless options for customisation, thanks to the many finishes available that are constantly updated.

OUTDOOR CHAIRS

ABUELA BY GABER

CROP BY ALLERMUIR

FULLER BY GABER

GUINEA BY PEDRALI

BonAppetit
Perrier

ABUELA
by GABER

The Abuela chair combines clean design with the uniqueness of detail, creating a very special combination dedicated to the most ambitious environments. The Abuela collection, developed in techno-polymer, is suitable for the eye-catching hospitality and contract environments and is characterized by uncompromising comfort. The possibility of integrating chairs, armchairs and stools with an elegant and original design, always with bright and trendy colours, helps to create unique and precious indoor and outdoor environments.

CROP
by ALLERMUIR

Crop is a family of outdoor chairs and stools named after the enigmatic rolling fields of crops in the British countryside, which are represented in the flowing parallel wires of the seating forms. The durable seating is suitable for al fresco dining and socialising in a variety of hospitality, commercial and residential settings.

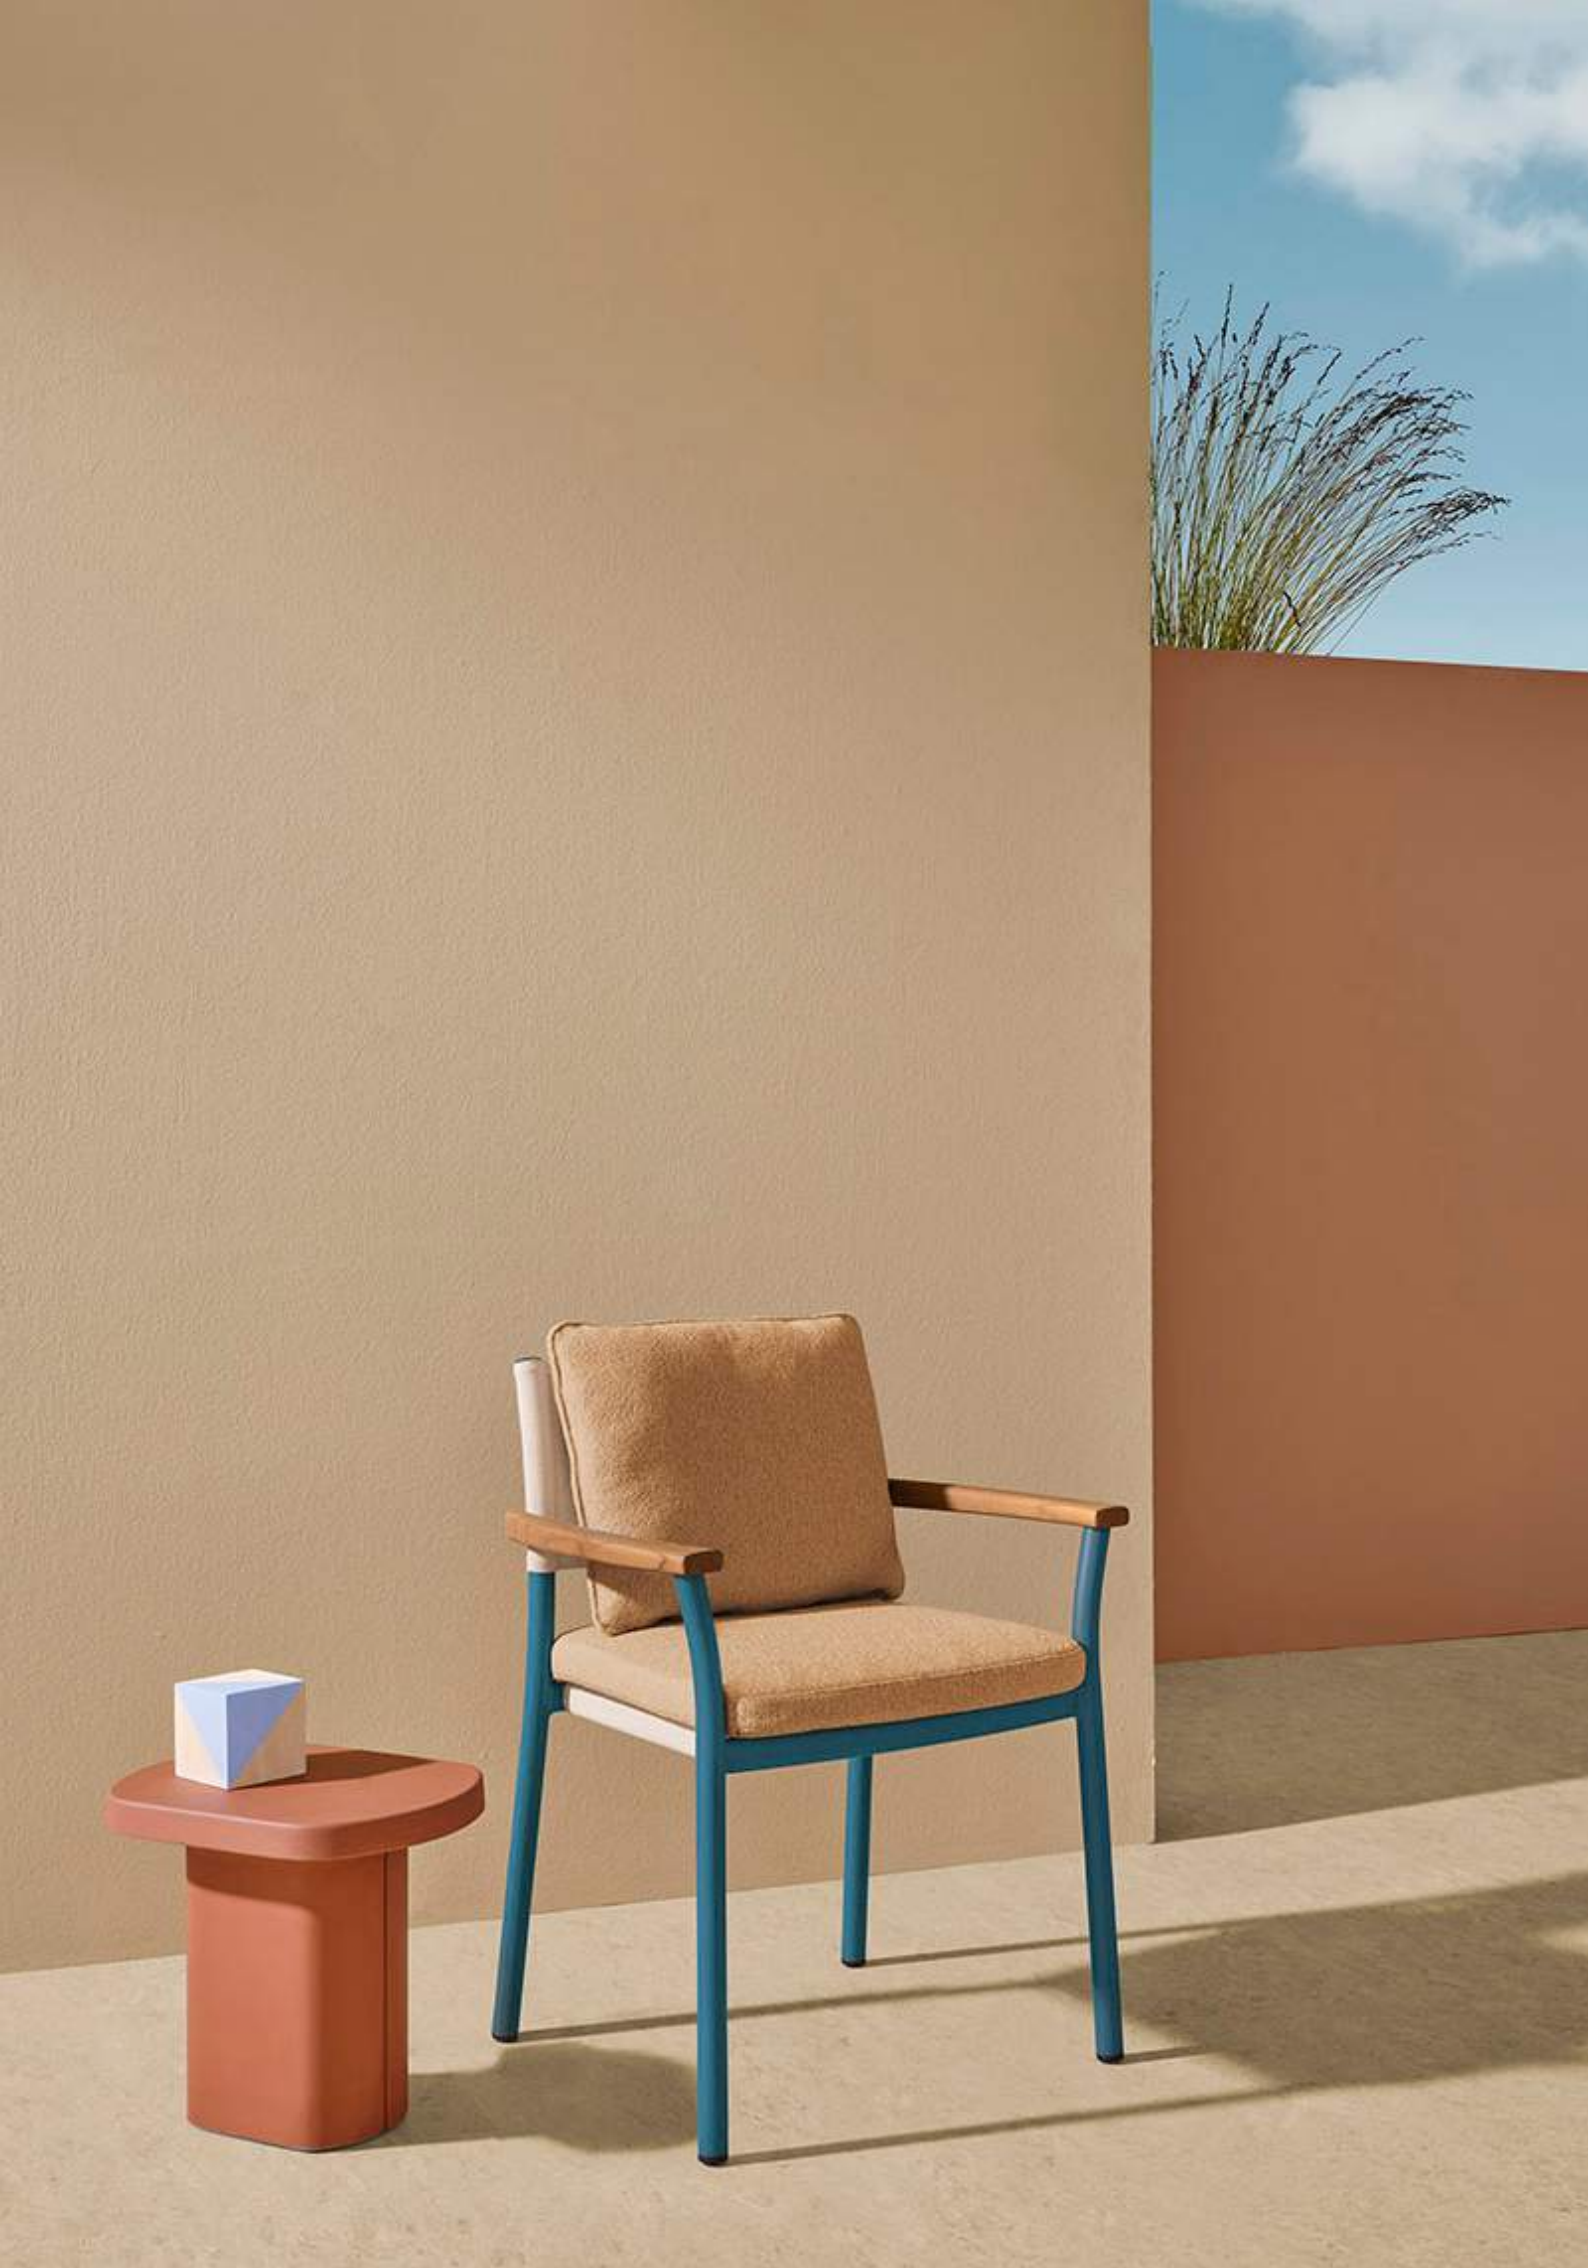

FULLER
by GABER

On going research into shapes and materials, combined with the most modern processing technologies, has given rise to the creation of the Fuller collection. Designed by Marc Sadler, the collection stands out by dint of its unusual framer design, a continuous game of empty and full spaces that intertwine to create an exciting threedimensional effect. Fuller,a manifestation of Gaber's experience and ability to innovate, is a unique and surprising choice for dynamic workspaces and hospitality contract projects, where a stand-out look is required.

GUINEA
by PEDRALI

Guinea is an outdoor armchair with an iconic allure that evokes the concept of lightness and transparency. It has an aluminium frame combined with a seat in waterproof textile mesh on which rests a soft, removable cushion. The waterproof textile mesh backrest is reminiscent of the traditional director's chairs, with an enhanced sense of visual lightness. The hallmark is its teak armrests, which fit into the frame by introducing a vivid, tactile detail.

POUFS & STOOLS

ARKI BY PEDRALI

BEEP BEEP BY DEBERENN

CLOP BY LUXY

NEBU BY SITIA

SWINGO BY SITIA

ARKI
by PEDRALI

Arki-Stool joins Arki collection which reviews the industrial look in a functional way. A barstool with solid oak seat and legs, swivel and with gas lift device, to easily change the height. A steel footrest on the legs creates a nice contrast to the naturalness of the wood.

BEEP BEEP
by DEBERENN

Beep beep offers a practical solution for sitting with its wheeled for legs tube base in meeting and seminar areas. Its rotating table allows multifunctional use as a notebook or laptop holder, and it can be easily moved to any space. Rotating tables are offered in 3 finishes as laminated, lacquered and veneered.

CLOP
by LUXY

Provocative, self-mocking, nonconformist. Clop is an unexpected seat, designed to break every rule of etiquette and encourage creative flow. Which, as we know, often does not arise in the comfort zone but, on the contrary, can spring in unconventional contexts and conditions, such as sitting on a out of the ordinary chair.

NEBU
by SITIA

A combination of multi-dimensional pouffes, with systematic, symmetrical and clean shapes, able to create and recreate a harmonious and dynamic environment. Nebu collection is particularly suitable for hotel lobbies, public areas or living contract spaces.

SWINGO
by SITIA

A practical swinging stool, with an informal style, designed mainly for contract use in office spaces. Swingo can fit a huge variety of applications in different environments, while maintaining an original nature. Thanks to its compactness it is also perfect for the corner as a quick sitting option, always available.

TASK DESKS

- 6X3A BY ULTOM
- CHEMISTRY BY SENATOR
- GALAXY BY ARTECO
- MILETO BY ARCAROSSA
- SHARD BY CITTERIO

6x3A
by ULTOM

In a constantly evolving work environment, the way to approach and live spaces changes. Rationality and formal simplicity give birth to flexibility, customization and comfort. Practical and welcoming furnishings. The 6x3A collection introduces an oak leg, that fits into the support structure of the top. The colours chosen emphasize the naturalness of wood, giving to the product a distinguishing tone for the operational world and a coherent look for the managerial world.

CHEMISTRY
by SENATOR

The Chemistry range of workstations creates a stylish yet flexible solution that improves productivity and facilitates diversity for individuals and teams. Chemistry can be configured as individual desks or as a bench solution that shares components, allowing for the integration of partitions that form touch down workstations or meeting spaces.

GALAXY
by ARTECO

The Galaxy task desk design is elegant and particular by emphasizing on the triangular shape of its metal structure. Tone-on-tone colours and varnishes make the outcome refined and contemporary. The collection features extractable vertical elements for rigorous organization and filing, integrated into the workstation.

MILETO
by ARCAROSSA

The Mileto task desk, is characterized by its elegant inclined lines influenced by the strong Nordic design. The two-toned legs can create a visual interest and the whole design of the structure is aiming in making the office environment feel more casual and home-like, in order to increase conform and productivity at the same time.

SHARD
by CITTERIO

Shard is a collection of operators' office desks with an elegant and innovative design, that borrow the shape of a shard, and their feet are in painted steel at the base, giving each workstation a unique touch of elegance. Their modularity allows to create individual workstations, benches or more complex combinations.

EXECUTIVE DESKS

CORNER BY CITTERIO

MORE BY SINETICA

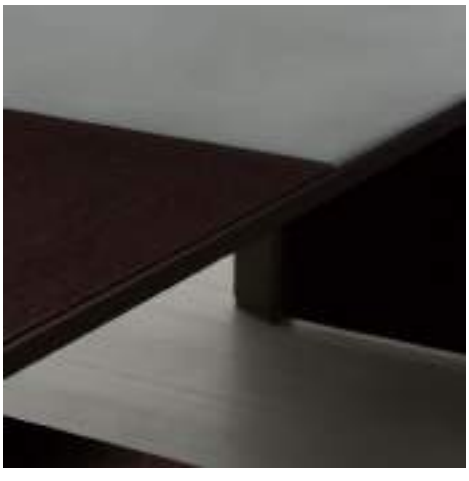

PITAGORA BY ARCAROSSA

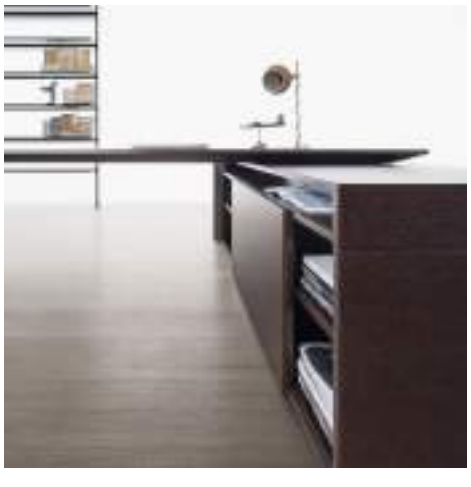

RAIL BY BRALCO

CORNER
by CITTERIO

Corner is a highly representative executive office, made with wood and aluminium, designed for making work effortless. This project includes two versions, with panelled structural sides and with corner legs in coated aluminium. The two options offer aesthetic and functional alternatives, allowing for individual desks or workstations integrated with storage units.

MORE
by SINETICA

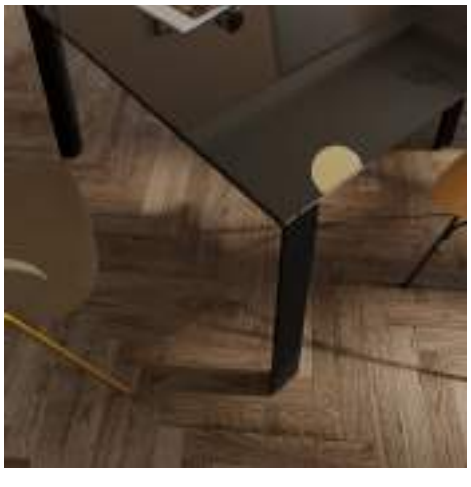

The More executive office desk with the side unit meets the needs of executives, managers and operators who require a solid, multi-function work area. The lacquered and wood table comes with a leather or eco-leather desk pad with the lacquered and wood side unit being highly practical. The structure is supported by a counter in walnut or oak wood or painted melamine panels. The contemporary design will distinguish executive and administrative offices with elegance.

PITAGORA
by ARCAROSSA

Thanks to the structure that is created with extruded aluminium bars, cut at 45° and connected via an interlocking system, the possibilities for the Pitagora series become limitless. Pitagora is a tailor-made piece of furniture, with unique shape, which covers all the particular needs in terms of dimensions for all workspaces.

RAIL
by BRALCO

Rail has a distinctive personality, as its concept proves it to be extraordinarily versatile compared to the environment in which it is introduced. It is characterized by soft lines, textured finishes and modern details. Rail is a prestigious solution that can be configured as desired by the customer, thanks to the many possible configurations of materials and colours. It is a solution that enhances any office environment.

MEETING TABLES

ARRAY BY SENATOR

DAPPER BY SITIA

HOLO BY KRISTALIA

METAR BY BRALCO

STAY BY SINETICA

ARRAY
by SENATOR

In today's fast paced world, multi-use spaces have become a requirement of most organisations. People work, meet and collaborate all in the same location; Array has been designed with this in mind. Whether you're conferencing or training, Array is adapted so you can think, learn and work with ease.

DAPPER
by SITIA

A large table, designed for meeting or dining rooms, Dapper is a refined and practical table that embellishes contract or domestic environments. The top, available in different finishes, is supported by a metal structure of great aesthetic impact.

HOLO
by KRISTALIA

The combination of technology and creativity has led to the creation of Holo, which is a table featuring an original base with an oval hole, with a softly moulded shape in sheet metal. The shape is made using a process that involves many moulding and bending phases. The collection includes tables with oval or rectangular tops, with single or double bases, and console tables.

METAR
by BRALCO

The Metar table is not an aloof elegance, rather, it is specifically designed to welcome those who gather together in a meeting and make moments of sharing and brainstorming feel natural. The shapes promote functionality and the available configurations favour the possibility to choose the ideal table for any meeting room.

STAY
by SINETICA

Innovation in office design is possible with the Stay Executive modular desk, that changes the rules and presents configurations that will adapt to modern work areas. Comprising of wood, HPL or melamine work top, this work station stands on metal or beech wood legs supporting a CPU box, metal drawers, lamps and side-positioned service units, resulting in a highly flexible element.

MULTI-PURPOSE TABLES

AXYL BY ALLERMUIR

BIG WILL BY MAGIS

CASSANDRA BY ARCAROSSA

ELINOR BY PEDRALI

PLAY BY SENATOR

AXYL
by ALLERMUIR

Axyl tables follow the same design typology and constructional values as the rest of the Axyl collection, featuring the distinct frame. A table for every occasion. Axyl café & bistro tables are perfect for smaller gatherings while the dining tables suit larger groups and more formal settings. Axyl tables are exceptionally robust for continued use in high impact dining areas. The use of a solid Steel stem on the café range, greatly enhances the stability of the table while minimising the need for a large frame base.

BIG WILL
by MAGIS

The Big Will table is a striking collaboration between elegance and creativity. The table features a unique combination of classic materials and modern design, including two fixed legs and two wheels that move easily. The wheels are positioned at the extending end of the table and are paired with a die-cast aluminium structure available in three finishes. The top can be made of tempered glass, acid-etched glass, or American walnut.

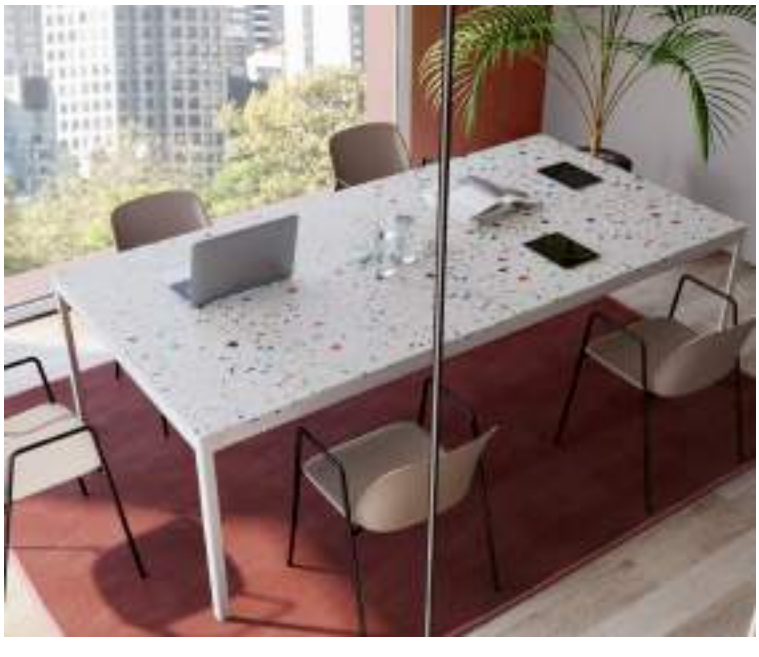

CASSANDRA
by ARCAROSSA

The Cassandra table collection is perfect fit in a modern and elegant working context. The structure is a bridge form with a perimeter frame for a built-in top, with clean and timeless lines that allow you to play with inspiring colours for modern office environments but which convey a touch of liveliness and freshness. The tops that can be recessed and the structure give extremely refined effects.

ELINOR
by PEDRALI

The Elinor table collection, with its soft curved lines, conveys a refined yet contemporary image. The base is formed of two moulded elements of fixed dimensions, made from rigid polyurethane foam and upholstered in genuine leather. The two elements of the base are arranged symmetrically, positioned in a way that recalls closed brackets.

PLAY
by SENATOR

Play Tables have been designed for you and your team an agile and flexible desking solution that can cope with the demands of the modern office.

SOFT SEATING

FAMIGLIA BY ALLERMUIR

MOMO BY SITIA

MS BY DEBERENN

OFFICINA BY MAGIS

ORAN BY ALLERMUIR

FAMIGLIA
by ALLERMUIR

The Famiglia family includes a collection of low, mid, high back and lounge chairs that between them offer a choice of metal or wooden legs and 5 star bases. These are complemented by a range of occasional and light work tables for informal or formal needs.

MOMO
by SITIA

With a fresh and contemporary aesthetic, Momo sofa is available in one, two or three-seater versions. The simple and clean lines of the elements make it perfect for contract spaces.

MS
by DEBERENN

Ms is a modern design is combined with the needs of contemporary life-style. The sofa is suitable both for private use as well as public spaces such as hotel lobbies, reception areas or business class lounges. Ms is adaptive organic form and diverse range of options invites inclusion in many contexts from offices to public spaces and homes in groups or alone.

OFFICINA
by MAGIS

The Officina collection explores the possibility of establishing a new creative language while working with an ancient fabrication process such as iron forging.
The collection includes tables and low tables, chairs, low chairs, stools, benches, a series of accessories (from coat stands to a valet stand to candelabras and mirror) and upholstered pieces (two armchairs, an ottoman and two- and three seater sofas).

ORAN
by ALLERMUIR

Characterised by the combination of a soft appearance and feel, with a precise and defined upholstery detail, Oran is a modular sofa system designed to work in both workplace and hospitality environments. The rounded and voluminous interior of the sofa is restrained by a defined seam, that leads the eye with ease around the sofa profile. Carried by a minimal powder coated Aluminium frame and cast Aluminium corner leg, the system allows the creation of an infinite number of configurations from a limited number of individual seat units.

BREAKOUT AREA SEATING

AURA LIGHT BY DEBERENN

BOMM BY SITLAND

HOLE BY ZIVELLA

ROCKS BY SITIA

SOCIAL BY PEDRALI

AURA LIGHT
by DEBERENN

Aura Light sofa is a versatile design for office and contract solutions, offering comfortable seating with modular combinations. It features a unique ergonomic shape, smooth lines, and a range of colourful upholstery options. The concept allows for endless combinations and shapes, making it perfect for lounges, receptions, and breakout spaces.

BOMM
by SITLAND

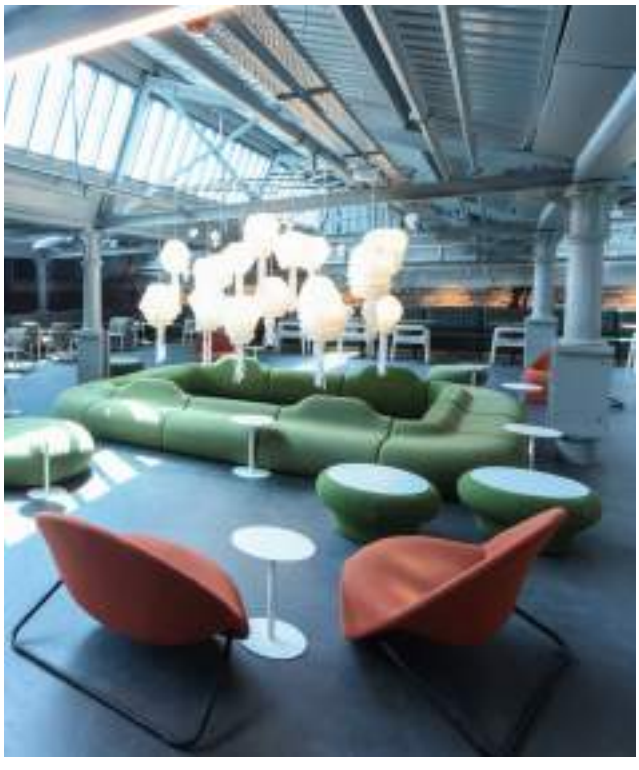

Bomm was designed with a view to sustainability, pursuing the circular economy model already defined by Sitland. The materials used to manufacture Bomm come from kilometer 0 suppliers, enhancing in this way the Made in Italy and reducing CO2 emissions into the environment. These materials have been selected to offer the maximum resistance and durability of the product, minimizing at the same time the generation of waste. The modular design also allows each module to be easily disassembled at the end of its life promoting recycling.

HOLE
by ZIVELLA

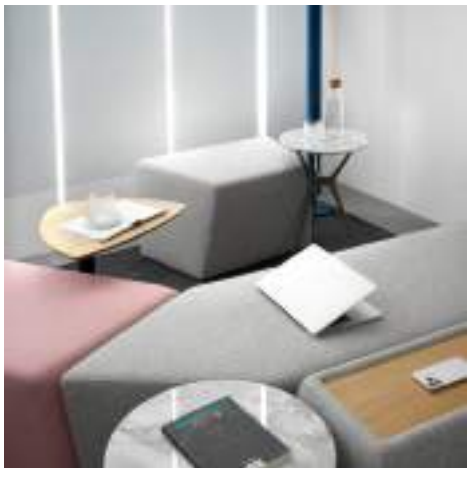

Hole is inspired by the gravitational pull of black holes which adds extra dimension to any space. It meets all the needs of a waiting hall seating on its own, but can be accompanied by an entire group of products including the coffee tables, poufs, and modular furniture pieces in various sizes. Hole is a new form which is original and reproducible.

Spazio Prodital

ROCKS
by SITIA

Rocks is a modular sofa with rational lines, created to fit the spaces and the needs of contemporary contract environments. The sofa modules can be easily arranged to create infinite aesthetic and functional combinations, to optimize a hall, a reception area or a breakout area. The product design is based on two main elements, the bench and the connection seat. Other complementary modules that can be added, for additional functionality, is a bench with accessories and a backrest, also available with desk.

SOCIAL
by PEDRALI

Social is a modular system of linear, corner, curved seatings and poufs that can be matched to create an endless replicable sofa ready to host sociable moments. Modular system with two, three or four linear and corner seats in polyurethane foam and elastic belts in the backrest, steel frame and die-casted aluminium legs at the far ends.

LOW TABLES

BALANCE BY DEBERENN

BATAN BY ALLERMUIR

LAPELLE BY DEBERENN

LOVERS BY SITIA

ROLLER BY GABER

BALANCE
by DEBERENN

Each Balance table from the collection, has its own unique pattern, texture and colour transitions coming from the naturalness concept of the tree. This ensures that each product comes to life with a different identity. The round lines of the product, refer to the warm, friendly and spacious feeling that draws its strength from nature. Produced from solid wood, which is a sustainable and natural material, balance emphasizes sustainability with its timeless line and handcrafted details.

BATAN
by ALLERMIUR

The Batan range of tables combines elements of soft aluminium extrusions with fully rounded solid top surfaces, contrasting concrete bases with soft finish glass tops and elegant shapes of pure geometry constructed with cut and formed steel.

LAPELLE
by DEBERENN

The lapelle wooden table, can fill the space with warmth that brings a natural element to a contract environment. Perfection with the soft form structure and the wooden pattern, visible to its finish. The different colours of the top piece bring a contemporary aesthetic to the whole piece.

LOVERS
by SITIA

Lovers coffee tables are the perfect accessories to add fineness to a professional or domestic environment. They are available in a version with single top, or two double top variants. They are also available in a selection of materials and shapes, supported by a rod steel frame that connects the slender legs

ROLLER
by GABER

The Compact Table Collection is a revolutionary line of tables created with a durable techno-polymer base structure. The contemporary form of a mirrored conical shape, make it visually interesting for the office indoor spaces or the outdoor spaces, as it is suitable even for the most demanding weather conditions.

RECEPTION DESK

FACTORY BY SINETICA

LIGHTBOX BY ARCAROSSA

LODGE BY ARTECO

LUX BY BRALCO

FACTORY
by SINETICA

Factory is a reception counter that will give your company a clear, uncompromising image. The Factory reception desk can be constructed or finished with wood, melamine or lacquered tops finished with a toughened glass top or marglas. The Factory reception desk is designed for contact with the public in high traffic places such as hotels, office spaces and conference halls. Its exclusive characteristics make Factory Reception a counter that makes a refined statement anywhere.

Welcome

LIGHTBOX
by ARCAROSSA

The Light Box reception desk is ideal as the first point of contact for every lobby space. It can reflect the environment and the culture of which it is a preview. The Light Box is elegant, with clean and modern lines enhanced with LED lights that ensure an exceptional visual impact, without neglecting the operator's comfort. The Light Box line certainly communicates elegance, concreteness and modernity. Customization is ensured by the range of materials that can be used, by the play of light and finally by the engravings or applications on the panels.

LODGE
by ARTECO

The Lodge reception desk, exhibits a blend of premium materials including melamine and glass, creating an elegant yet durable furniture piece. Can be enhanced with LED lighting, which adds to the aesthetic of the overall space. Its versatile design allows for customizable configurations, ensuring it seamlessly adapts to the distinctive requirements of every workspace.

LUX
by BRALCO

The Lux reception desk is a sleek and minimalist emphasizing its lighting feature. With customizable finishes, it exudes elegance and sophistication. The warm downlighting creates a sense of suspended quality, while the adjustable light intensity and the cable management channels ensure functionality. Lux can be configured in various ways, including as a conference room counter, and features adjustable desktop height and customizable shelf positioning.

STORAGE

AVENUE BY KRISTALIA

COMPIS BY ARCAROSSA

ELYSEE BY MAGIS

MOTE BY SENATOR

PLAY BY SENATOR

AVENUE
by KRISTALIA

Avenue is a collection of cabinets with a clean and sleek design. Its elements replicate those of the Avenue System for the living area in size and finish, which they naturally complement each other. Combinations of closed units and open metal elements are designed to create an interesting interplay of proportions and volumes, open and closed spaces, balancing aesthetic appeal with functionality.

COMPIS
by ARCAROSSA

The Compis bookcase is focusing on functional design. Its sleek, minimalist structure appears to defy gravity, seemingly suspended against the wall as it creates a subtle yet striking visual pause. The deliberate gap between the wall and shelf allows for a sense of breathing room, inviting the eye to linger and appreciate the beauty of the design.

ELYSEE
by MAGIS

The Elysée shelving modular design system inspired by a 1971 commission for the Elysée Palace. The system features bentwood modules that can be combined in endless ways using “T” joints. Available in various materials and colours, Elysée can be used as a wall-mounted bookcase or as a freestanding room divider.

MOTE
by SENATOR

Mote storage has been designed to complement the full range of Mote seating. Featuring a contemporary silhouette, Mote storage comes in three heights that share a common design language, ideal for meeting rooms and collaborative environments.

PLAY
by SENATOR

Play Storage provides your workspace environment with a great storage solution that can house open drawers, shelves and lockers. With an infinite number of possible combinations, you can have a modular storage solution which is truly unique to you.

COMPLE-
MENTS

360 BY MAGIS

CRATE BY ALLERMUIR

FLAG BY PEDRALI

YPSILON CONNECT BY PEDRALI

360
by MAGIS

The 360° containers on wheels, open the way to a new concept of office work. The design and function are certainly unconventional as its compartments swivel around, encouraging its dynamic use. Because of the central pivot element, it is possible to access more than one drawer at the same time, playing on the concept of simulation use for maximum efficiency.

CRATE
by ALLERMUIR

From its slender frame to soft colour palette offering, Crate fits into many environments. With the popularity of indoor foliage, Crate was designed to contain and elevate potted plants but is equally adept at storing everyday items.

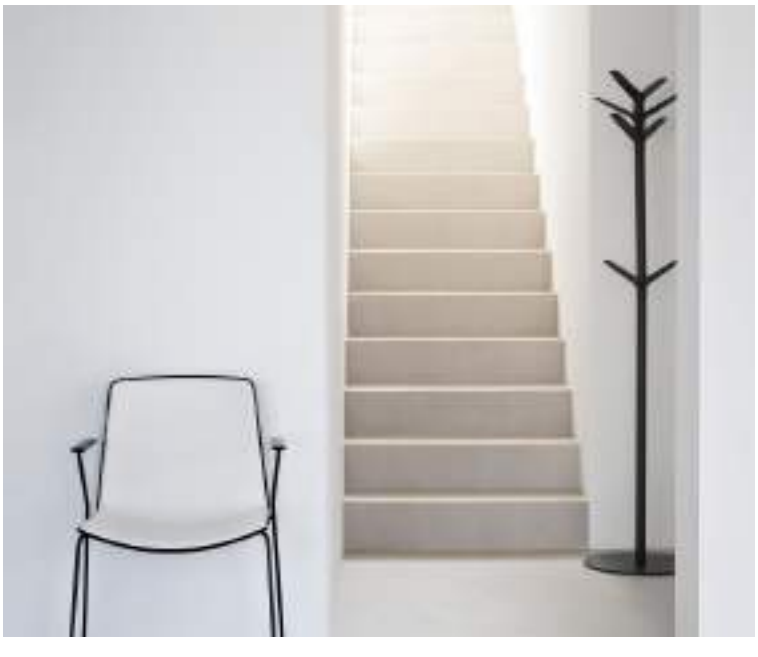

FLAG
by PEDRALI

Flag is a coat stand, that results from the synthesis between form and function. It features a steel base and column, in powder coated finish, while the arms are made of polypropylene charged with fiberglass. The result is an extremely versatile product thanks to the various possibilities to assemble the four arms, always ensuring its functionality.

YPSILON CONNECT *by* PEDRALI

Ypsilon Connect is an elegant and functional self-supporting, sound absorbing partition panel. One of the greatest strengths of this product lies in its extensive customisation possibilities thanks to which users can create new layouts, manage their spaces more effectively and create welcoming office spaces or functional training and meeting rooms.
