WORK SPACE ESSE NTIALS

DESKS, TABLES & STORAGE SOLUTIONS

The Consquare Edit

Workspace Essentials is a catalogue that brings together a selection of furniture ranges designed to support everyday working environments. Each section introduces a product family with its main specifications, accessories, finishes, and configuration options, illustrated with images that highlight both form and function. The catalogue is intended as a practical reference, giving you a straightforward overview of what each range can offer, while leaving space for further discussion and tailored solutions where required.

DOCUMENT GUIDELINES & NOTES

This section provides guidance on navigating the catalogue and accessing the product information efficiently. The interactive features included are designed to make browsing straightforward, allowing you to move between categories and products seamlessly, and to explore in more detailed the specifications and options we offer.

Navigation

The table of contents is fully interactive. Clicking on any category or product listed, will take you directly to the corresponding page within the catalogue, allowing for quick and efficient browsing.

Product Pages

Each page is dedicated to a single product. The product name, prominently displayed at the top of the page, is clickable and marked with a small hand icon. Clicking on the product name you will be redirected to the manufacturer's website, where additional resources are available, including additional images, detailed specifications, more colour options, and information on the complete product family, if applicable.

Technical Notes

Dimensions: Products are available in a variety of standard sizes. Depending on the specific product and order quantity, the manufacturer can produce customised dimensions to meet specific project requirements.

Configurations: Certain products are offered in alternative configurations to accommodate different workspace needs, including modular options for multiple users.

Colours and Materials: The colours and material finishes presented in this catalogue are indicative. A broader selection of finishes is available for surfaces, frames, and components, subject to manufacturer availability.
